

We want to manage support for different projects in countries where it is possible to snowboard and ski in the sand dunes with the practice of sandboarding and sandskiing for children and adolescents.

Sandboarding Peru, main sponsor of the projects carried out by InterSands, has announced that it will suspend its commercial functions until January 2021 due to the COVID pandemic since it has greatly affected tourism and is one of the sources of resources for the sustainability of the projects carried out. in Peru.

**PROYECTO**

**6EIS**

It is the result of the current situation due to the pandemic that is hitting the world.

We know that the re-activation of tourism for which we rely on will be slow, but during these 12 years of experience, we have gone through many challenges without leaving aside our social task for future generations.

We want to dedicate 06 full months to our main project of responsibility for the local children and youth of the city of Ica (the time period mentions the project (6) Six months).

**sandboarding PERÚ**

*WE INVITE YOU TO TAKE PART!*

## PROYECTO

## SEIS

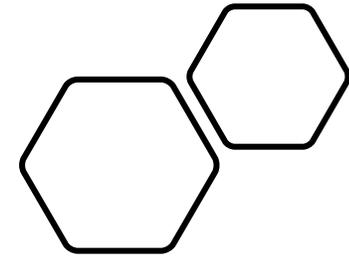

Although Sandboarding Peru started its project for social inclusion since its foundation; it was in 2014 that it was consolidated with a group of teenagers who arrived walking from one of the neighborhoods of Ica to Huacachina and met Martin, since then they have been the main participants of the project. 06 years later they are young athletes and sandboarding instructors who share their passion with all the travelers who visit Huacachina-Ica.

# PROYECTO

# 6EIS

Just as we have guided them, we want them to continue to guide other children using sport as an important tool for development and social inclusion. The path is already marked and we do not want it to stop.

***Are you looking for a social responsibility project for your company in Peru?***

Your company can benefit from this project because of the years of experience we have showing results, capturing national and international interest on media, but above all, using the content in favor of your company as an example to follow.

# HOW CAN YOU SPONSOR?

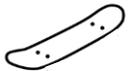

For the implementation of the project, it is necessary to primary cover the payment of the instructors (02) and the monitor/coordinator who will be in charge.

- Sponsorship with the expenses of 02 of the instructors for 06 months.
- Sponsor with the expenses of 01 of the monitors/coordinator for 06 months.

## BENEFITS
